SUMMARY

As a dedicated Web Developer, I have a passion for creating responsive and accessible web applications using JavaScript, React.js, Node.js, Jest, HTML5, CSS3, MongoDB and SASS.

My 5+ years' background in design and project management reinforces my proficiency in delivering clean, scalable, and efficient code that seamlessly converts intricate business concepts into feasible, actionable objectives.

Bolstered by an unwavering work ethic and innovative spirit, I thrive in tackling complex challenges and problem-solving in dynamic environments.

PROJECTS

Organic Supermarket(Solo)

🔗 https://organic-supermarket.netlify.app/

JavaScript|Firebase|HTML|SCSS|CSS

- Organic is a multi-page e-commerce site with a fully functional shopping cart connected to a real-time database, advanced product search and filter, scroll effects using Intersection Observation API, image carousel gallery and is fully responsive across all viewports.
